INTRODUCTION:

Engineering graduate currently working as a Full Stack Development Intern at Vajra.ai. Hands-on experience in building full-stack web applications using Firebase and Supabase. Strong foundation in frontend development, database integration, and analytical problem-solving. Seeking entry-level software development opportunities in dynamic environments.

INTERNSHIPS:

Full Stack Development Intern – Vajra.ai | Dec 2025 – Present

- Developing full-stack web applications under mentorship.
- Integrated Supabase and Firebase for backend database management.
- Designed structured database schemas and implemented CRUD operations.
- Built dynamic filtering systems and responsive UI components.
- Collaborating in a team-based agile development workflow.

PROJECTS:

Used Cars Resale Web Application (Ongoing)

- Developed a full-stack web platform for listing used cars and advanced filtering.
- Implemented brand, price, fuel type and transmission-based dynamic filters.
- Integrated supabase backend for structured data storage and retrieval.
- Integrated ML models on the website for a better user experience.
- Tech Stack: HTML, CSS, JavaScript, Supabase, Flask, Python

Crime Rate Analysis Dashboard (Ongoing)

- Developed a web-based crime data visualization platform.
- Integrated firebase for real-time data storage and querying.
- Implemented region-wise filtering and comparative data analysis.
- Tech Stack: HTML, CSS, JavaScript, Firebase.

TECHNICAL SKILLS:

Programming: Python, Java, JavaScript, SQL, Typescript
Frontend: HTML, CSS, React
Backend: Django
Database: MySQL
Tools: Git, VS Code, Supabase, Firebase
